

NZQA 3271 Fire Extinguisher

NZQA unit standard 3271, suppress fire with hand extinguishers and fixed hose reels, is applicable to members of the general public in industrial and domestic situations.

People credited with this unit standard are able to demonstrate knowledge of the fire classes and fire suppression techniques, and to select and implement a strategy to deal with fire.

Courses are delivered using current technology and environmentally safe practical techniques and equipment.

Fire & Hazard Training Services have been offering workplace fire safety training in Canterbury since 1997. Our qualified team of instructors have extensive practical fire-fighting experience that adds value to the quality of the fire training sessions.
